## Document Management Solution

**MedXnet™ is a medical, legal and business document management solution. Ideally suited for use in environments where documents must be peer reviewed or management reviewed and approved prior to general availability, medXnet™ manages the entire process.**

### MedXnet™ Benefits

- The available document is always the latest approved version
- Mitigate legal risks - the correct document is always used
- Reduce Cost of document management
- Reduce burden on Quality Assurance
- Quick search of any of the organization's documents
- Reduces burden on Quality Assurance document management
- Quick and powerful homophone and Pseudo-homophone search
- Approved documents cannot be edited by unauthorized users

### MedXnet™ Features

- Automatic management of documents
- Procedures for internal contributors and external contributors
- Robust document tracking for edits and comments
- Automatic notification when documents expire
- Unlimited departments and document categories
- Automatic association of documents to departments
- Automatic association of documents to reviews
- Exception feature allows change of review on-the-fly
